

EUR-ACE Label Committee

Terms of Reference

General:

To make recommendations to the Administrative Council of ENAEE in relation to the granting to accreditation agencies, which accredit engineering programs in the European Higher Education Area (EHEA) the right to award the EUR-ACE label to engineering education programmes that those agencies accredit.

Particular:

(a) To develop and implement policies and procedures for the evaluation of the criteria and procedures of applicant agencies and the conditions under which they may be granted the authorization to award the EUR-ACE label.

(b) To determine the compliance of applicant agencies with the requirements in (a).

(c) To appoint evaluators to investigate the compliance of applicant agencies with the requirements in (a).

(d) Where appropriate, to recommend the authorisation of an agency to award the EUR-ACE label to individual engineering programmes in a country where no appropriate agency exists.

(e) To inform accreditation agencies and higher education institutions of the policies and procedures of the EUR-ACE Label Committee through the ENAEE website and otherwise.

(f) To promulgate the EUR-ACE label as the quality mark for the accreditation of engineering education programmes in the EHEA.

(g) To assist the development of engineering accreditation agencies in countries where no such agencies exist.

(h) To review periodically EUR-ACE policies, standards and procedures and to recommend to the Administrative Council any changes as may be required.
